Public hearing testimony: SB-16 - **OPPOSE**

Distinguished Members of the Committee,

I wish to voice my opposition to Senate Bill 16. More bans, restrictions, registration, fees, and gun freeze zone on the most law-abiding citizens in this state, is not going to accomplish anything but disarming the law-abiding citizens that are not the problem.

I'm sure you will hear testimony today, from people that say the mere sight of a firearm, scares them, intimidates them. That so called fear and intimidation has nothing to do with the firearm. Those same people that will most likely testify will have no issue with a police officers carrying or even open carry a firearm.

Stop passing legislation that divides, segregates and intimates those who believe in self-defense. DO NOT PASS SB-16.

Thank you

John Cuzzalieri

Southington
